Magnum Classic and Magnum Black Digital Albums

Magnum Classic and Magnum Black Digital Albums

The Magnum is a truly unique digital album, which is made to the very highest quality and standards. This album is printed on high quality photographic paper which is mounted to 2mm thick pages.

There is a transparency sheet between every page which can be printed with a ghost image of the picture underneath it if required. Alternatively, this transparency sheet can be printed with the Bride and Groom's name or even the Photographer's own name and logo. This album is designed so that you will not have a score/fold going through the important parts of any image which happens with all other albums no matter how clever you are with your design.

There are 2 cover options. The Magnum Classic (left) is a modern brown album cover with an aluminium plate containing a picture of your choice, bordered by beautiful varnished wood. The Magnum Black (below) has a modern black wooden cover with an aluminium plate printed with the picture of your choice.

There is no other digital album anywhere in the world that compares to this album!
